

Dear FVSO Association,

Is everyone still healthy? I'm still healthy, I wrote to tell you I have received enough money, I thank you very much. In Vietnam we hear our school continues to be on hold. I think because of the corona virus, in this March I read documents and study at home, in addition to studying, I help the nuns to teach the children to take extra classes and wash the clothes they bathe, and recite prayers with us. We must be in the house and not out of the gate afraid of corona virus, but on your side there is a virus? I hope that both of you and your family will be healthy and peaceful in the hands of the Lord, once again I wish you healthy and happy to be successful in life and their families always happy, may God accompany you, with you guys,
Thank you for all you provide for me.
I wish you a happy day ☺
