

First of all, I would like to send my best wishes and best regards to Clyde as well as benefactors.

Dear Clyde, when I was in the village (3 weeks ago) I received my gmail but in the village I have no means to respond to you, please forgive me for my shortcomings. Dear benefactors, those who helped me in particular and students of Pleiku said them. You have helped us a lot both mentally and physically. We don't know how to repay the gifts you give us. For us, you are like our father, our second mother and father, every mother wants to know how their children live, what their work is like ... For you, those who have to travel all over the place to ask for small sums of money to help us in our studies and in life, you are sure that you always want to receive the sharing, the confidences of every student - the students you help with, especially those who have graduated like our brothers and sisters.

Here, I would like to ask the representatives of Pleiku students to talk about the work we do after graduation:

1. We include: A Tong, A Bieu and Ro Cham Trai. After graduation, our brothers and sisters went to the Franciscan Monastery to live a religious life. Here we sometimes encounter quite a lot of difficulties especially in fraternal life ...
2. A Nin, A Dien and A Thuong returned to their homeland to help their families, their main daily work being farming.
3. A Việt is currently working part-time job to earn some money to pay for himself, after this year he intends to study and live the consecrated life.

Previously, 7 of us lived in the same house, but after graduating, each person had a different place and each had a job. One thing that we cannot deny is that our brothers

and sisters will encounter different events and difficulties ...
After such incidents and difficulties, we can only send out
the feelings. We pray to you, Lord, that you may pray more
for our brothers so that we may walk steadily on the path
that each of us has chosen. We also dare not forget to pray
for you, the hearts of gold, who have sacrificed for us no
less.

Once again, I wish you all good health, wish you all the
luck in your life and happy new year.

(I asked Ms. Nga and Sister Lan to translate for me, thank
you very much)

Johnathan
